

Aaref — AI Sales Employee

عارف

Business profile

The sales employee who answers every lead in seconds, follows up until the customer decides, and closes the next step — a booking, a registration, an order in your store, or a qualified request for your team. What he does, what he is worth, and how we hire him for you.

From first look to first results

1 Meet Aaref

The first voice your customers hear, on every channel, at any hour.

Aaref عارف

AI Sales Employee · Answers every lead in seconds and follows up until it turns into a sale

📍 Works on your WhatsApp, Instagram, Messenger and website

DEPARTMENT

Sales

WORKING HOURS

24/7, weekends, holidays and Ramadan nights included

WORKS WITH

Your sales team, Adnan after the sale, Roz on quality

EMPLOYER

Your company — built and looked after by GenuDo

REPORTS TO

Your sales manager — or you

LANGUAGES

Arabic in 14 dialects and English; reads voice notes and photos

NAME

Aaref means “the one who knows”: your offers, your prices, every lead's story

STARTS

After a planning session with your team

About

I'm Aaref, the sales employee who never lets a lead wait. I answer every inquiry that reaches your WhatsApp, Instagram, Messenger or website in seconds, day and night, in your customer's own dialect.

I ask the questions your best salesperson would ask, explain your offers from your own price list, and follow up with everyone who goes quiet. Then I close the next step, whatever a sale means in your business: a booking in your calendar, a course registration, an order created in your Shopify store, or a request logged in Google Sheets and sent to your team. You see every step on one dashboard.

SPEED

First reply

Seconds

at any hour

Every inquiry, on every channel.

DISCIPLINE

Follow-up

Never forgets

day 1, day 3 ...

Until the lead decides.

Capacity

All at once

no queue

A campaign spike needs no new hires.

SCALE

CONTROL

Visibility

Every lead

on one dashboard

Stage, source and cost per conversion.

2 Job description

Written the way you would post the role on LinkedIn: what Aaref is hired to do, the skills he brings, and the rules he works by.

Responsibilities

-  **Answer every inquiry in seconds**
On WhatsApp, Instagram, Messenger and your website, day and night.
-  **Present your offers**
Prices, packages and answers from your own knowledge base — nothing improvised.
-  **Close the next step**
A booking, a course registration, an order in your store, or a request logged for your team.
-  **Keep your records current**
Writes each lead and order to your CRM, store or Google Sheet; posts hot leads to your sales WhatsApp group.
-  **Qualify each lead**
Asks what your best salesperson asks: need, budget, timing, location.
-  **Follow up until a decision**
Reaches silent leads when you choose — after 3 hours, after a day — with the right message or video.
-  **Move leads through your stages**
From new to qualified to won, by the stage rules you set.
-  **Hand over at the right moment**
Passes ready or sensitive leads to the right person, with the full conversation.

What “a sale” means in your business — Aaref closes it

-  **A booking**
Clinics, gyms, salons, test drives: in your calendar.
-  **A registration**
Courses, camps and events: the seat is taken.
-  **An order**
Created in Shopify or your store, paid or cash on delivery.
-  **A request for your team**
Logged in Google Sheets and sent to your team's WhatsApp group.
-  **A qualified lead**
In your CRM with the details, ready for a callback.

Skills & capabilities

-  Instant response
-  14 Arabic dialects + English
-  Understands voice notes
-  Reads photos
-  Lead qualification
-  Persistent follow-up
-  Orders, bookings and sign-ups
-  Knows when to hand over

Tools Aaref works with

-  WhatsApp Business
-  Instagram Direct
-  Messenger
-  Website chat
-  Shopify or your store
-  Google Calendar
-  Your CRM
-  Google Sheets
-  Sales WhatsApp group
-  GenuDo dashboard and app

Works with your team

Aaref is the first voice your customer hears. Ready-to-buy leads go to your sales team with the whole conversation. After the sale, Adnan takes over customer care, and Roz reports on your team's own WhatsApp conversations.

Rules of the job

Answers only from what you approved: your prices, offers and policies. Never invents a discount or a promise. Hands sensitive questions — medical, legal, complaints — to a person. You can pause him on any chat and take over in one tap.

3 How Aaref works your business

Where Aaref sits in your sales operation — and one evening of his work at an invented online skincare store.

Inquiry arrives

Any channel, any hour, from an ad or a search.

Answered in seconds

In the customer's dialect, from your prices and FAQs.

Qualified

Need, budget, timing: what your best salesperson asks.

Converted

Booking, sign-up, order or request — where your team needs it.

Handed over

Hot leads to your team; CRM updated.

N

Nour A.
Instagram ad → WhatsApp · invented example

Hi! Is the vitamin C serum OK for oily skin? How much is it?

10:41 PM

Hi Nour! Yes, it's a light oil-free formula made for oily and combination skin. The 30 ml bottle is 650 EGP, cash on delivery. Shall I order one for you?

Aaref · 10:41 PM

Yes please, to Nasr City

10:42 PM

Perfect. Your full name and address, please?

Aaref · 10:42 PM

Nour Ahmed, Street 9, building 14, apartment 5

10:43 PM

Done! Order #1042: one vitamin C serum, 650 EGP cash on delivery, arriving in 2–3 days.

Aaref · 10:44 PM

Order created in the store's Shopify. The team had logged off.

10:41 PM

Nour asks about a serum
From an Instagram ad, after the team logged off.

10:41 PM

Aaref answers in seconds
Skin type, price and delivery, from the store's product list.

10:44 PM

Order created
In the store's Shopify, confirmed to Nour on WhatsApp.

9:00 AM

The team starts with orders, not questions
Last night's orders are ready to pack.

Next day

Follow-up for those who hesitated
A friendly reminder with the offer, at the time you chose.

Without Aaref
The question waits until morning. Nour buys from the store that answered first, and the ad you paid for sold someone else's product.

With Aaref
Answered in seconds, ordered in three minutes, confirmed on WhatsApp. The ad paid for itself while the team slept.

How GenuDo helps here
Every reply, stage move and follow-up appears in your GenuDo inbox and dashboard — on the web and in the iOS and Android apps — and you can pause the AI on any chat and reply yourself.

Contents · Page 5

4 The business value of hiring Aaref

Sales are won or lost in the minutes after a customer writes. Research on lead response is consistent — and most businesses answer slower than they think.

HBR 2011

Answer within the hour

7×
more likely to qualify the lead

vs. trying an hour later — and over 60× vs. waiting a day. 1.25 M leads, 42 firms [1]

MIT STUDY

Answer within 5 minutes

21×
more likely to qualify than at 30 min

Lead Response Management Study; vendor-funded, 15,000+ leads [2]

HBR AUDIT

Inquiries never answered

23%
of 2,241 firms never replied

Those that did took 42 hours on average [1]

HUBSPOT

Customers want it now

82%
want an immediate reply to sales questions

“Immediate” means 10 minutes or less [3]

Revenue protected

Every inquiry is answered in seconds, at 2 AM too, before the customer moves on to the next business in the search results.

Leads answered late today × close rate × average sale

Revenue recovered

Follow-ups that never forget bring silent leads back, at the right moment, with the right offer.

Silent leads who return × close rate × average sale

Ad spend that pays

Every paid lead is answered and qualified, so the cost of each new customer falls instead of ads feeding a slow inbox.

Ad spend ÷ new customers — before and after

Sales hours back

Your team stops typing the same price answer fifty times a day and spends the time on qualified buyers.

Inquiries × minutes per first reply

Contents · Page 6

5 The team it takes — and the employee you hire

Answering every lead within minutes, every day of the week, is a staffing problem before it is a sales problem. Here is the arithmetic for one seat.

One seat, around the clock, takes 4 to 5 people

Morning

Evening

Night

Rest days & leave

Sick days & training

168 h ÷ 48 h = 3.5 people under Egypt's 48-hour week [1]. Add annual leave and public holidays: 4. Add sick days and training: 4.5 to 5. For 16-hour days, about 3.

A human team for one seat

- At least 4 people for one seat, 24/7 — about 3 for 16-hour days
- Employer social insurance: 18.75% on top of each insured wage [2]
- A yearly raise of at least 3% of the insured wage, by law [1]
- Overtime at +35% by day and +70% at night; holiday work paid 3× [1]
- 30–40% of service staff leave every year; replacements need 3–6 months to reach full speed [3]
- 2–3 chats at a time per person before quality drops [4]

And still nobody on shift when the campaign spikes.

Aaref

- One AI employee for all 168 hours
- Built and looked after by the GenuDo team
- Knows your prices and offers from day one
- No shifts, no turnover, no re-training
- Every conversation at once, campaign or not
- Every lead measured on your dashboard

Your salespeople keep the buyers who are ready.

Not instead of your people — instead of the empty hours

Aaref covers the nights, weekends, repetitive first replies and campaign spikes that would take a team of four to five. Your best salespeople spend their day on the buyers he has already qualified.

Sources: [1] Egypt Labour Law 14/2025, Arts. 117–129 · [2] PwC — Egypt social insurance · [3] SQM 2023 — attrition and ramp-up · [4] MetricNet/HDI — concurrent chats

6 Measuring the return

ROI is agreed before Aaref starts and measured every month. The worked example uses an invented online store; the right-hand column is for your numbers.

ROI = (revenue protected + revenue recovered + value of team hours saved – Aaref’s plan) ÷ Aaref’s plan

MONTHLY FIGURE	INVENTED EXAMPLE	YOUR BUSINESS
New inquiries WhatsApp, Instagram, Messenger, website	600	
Share arriving after hours evenings, days off, holidays	40%	
Inquiries answered too late today the customer had already moved on	120	
Leads who went silent with no follow-up	150	
Silent leads won back by follow-ups assume 1 in 5	30	
Your close rate on answered leads	20%	
Average first order	900 EGP	
New customers a month (120 + 30) × 20%	30	
Revenue protected and recovered new customers × average first order	27,000 EGP	
Team hours saved on first replies 600 inquiries × 4 minutes	40 hours	
Monthly value to compare with Aaref’s plan	27,000 EGP + 40 hours	

How to read the example

Every number in the middle column is invented to show the method — it is not a forecast. In the planning session your account manager fills the right-hand column from your WhatsApp history and sales records, and agrees the targets with you.

7 Industry use cases

The six industries on genudo.ai, plus three where sales run on WhatsApp. For each: the problem, Aaref's job, and the number to watch.

 Clinics & healthcare FILL THE SCHEDULE	
THE PROBLEM Booking questions arrive after hours and wait until morning; booked patients forget and don't show.  <i>A mother asks a paediatric clinic at 10:30 pm about the fee and tomorrow's slots. Reception opens WhatsApp at noon — she has booked elsewhere.</i> Only 54% of healthcare test leads got any reply; the median first call came after 21 h 48 min [XANT 2014]. Text reminders cut no-shows from 21% to 15% [BMJ Open 2016].	WHAT AAREF DOES ✓ Answers fees and free slots at any hour, from your price list ✓ Books into your calendar and confirms on WhatsApp ✓ Reminds before the visit; follows up with those who asked but didn't book
MEASURE After-hours bookings No-show rate Inquiry-to-booking	
 E-learning & academies FILL THE COHORT	
THE PROBLEM Inquiries go unanswered or get a generic “price sent in DM”; the learner pays whoever explained the course first.  <i>A graduate asks at 9 pm about a diploma's price and start date. Next afternoon she gets the price only — and pays a competitor whose cohort starts Saturday.</i> 44% of inquiries to continuing-education units got no reply [UPCEA 2025]. Tailored replies made students 7× more likely to keep engaging [Edified via ICEF 2026].	WHAT AAREF DOES ✓ Recommends the right course for the learner's goal and level ✓ Explains fees, installments and start dates ✓ Registers the student or books an advisor call, then follows up until the seat is paid
MEASURE Inquiry-to-registration Seats filled per cohort Response time	
 Fitness centers & gyms TURN “HOW MUCH?” INTO MEMBERS	
THE PROBLEM Price questions answered tomorrow; trial-takers and walk-ins never followed up.  <i>First week of January in Maadi: dozens of “how much?” messages an hour. A trial is booked, no reminder is sent, nobody follows up.</i> Web inquiries were answered within 24 hours only 61% of the time, and only 35% of prospects were contacted within the club's own target [UK mystery shop, 500+ clubs].	WHAT AAREF DOES ✓ Answers packages, classes and offers around the clock ✓ Books the trial session or signs the member up ✓ Follows up after the trial until the membership is paid
MEASURE Trial-to-member rate New members a month Response time

Marketing agencies

QUALIFIED LEADS, NOT “BAD LEADS”

THE PROBLEM

Clients answer ad leads late or never — then blame the agency's targeting and pause the retainer.

 *An agency runs click-to-WhatsApp ads for an Alexandria dental chain. Chats arrive all evening; the clinic replies next morning. Month-end: “your leads are bad.”*

Across lead-response audits, 23% to 63.5% of inquiries were never answered at all [HBR 2011; RevenueHero 2024].

WHAT AAREF DOES

- ✓ Answers every campaign lead in seconds, in each client's voice
- ✓ Qualifies and logs each lead in the client's CRM or Google Sheet
- ✓ Books calls or hands hot leads to the client's sales team — with proof of what happened

MEASURE

Cost per qualified lead

Lead-to-call rate

Client retention

Hospitality & tourism

BOOK DIRECT, BEFORE THE OTA

THE PROBLEM

Rate and availability questions at midnight are answered two days later — after the guest booked through a travel site.

 *A Cairo family messages a Hurghada hotel at midnight before Eid for a 3-night rate. Reservations replies two days later.*

Egypt received about 19 million tourists in 2025, up 21% [Ministry of Tourism]. Email-era studies found fewer than 1 in 10 hotels replied promptly [Tourism Review 2003].

WHAT AAREF DOES

- ✓ Answers rates, rooms and policies in seconds, in the guest's language
- ✓ Collects dates and preferences; sends reception a ready-to-confirm request
- ✓ Follows up with hesitant guests before they book elsewhere

MEASURE

Direct bookings

Inquiry-to-booking

Reply time across time zones

Camps & events

SEATS FILLED BEFORE THE DEADLINE

THE PROBLEM

Registration rush: parents ask at night; the team replies after the early-bird deadline and the bus seats are gone.

 *A parent in 6th of October asks at 11 pm about ages, the bus route and the early-bird price. The team replies the next afternoon.*

57% of US music-event tickets were sold in the final week before the show [Eventbrite 2024] — people decide late and expect an answer now.

WHAT AAREF DOES

- ✓ Answers ages, schedules, prices and transport for every parent at once
- ✓ Registers each child with the details your coordinators need
- ✓ Handles group inquiries from schools and companies and books a call

MEASURE

Seats filled

Early-bird registrations

Launch-week reply time

Sources: [1] HBR 2011 · [2] RevenueHero 2024 · [3] Egypt Independent 2026 · [4] Tourism Review 2003 · [5] Pollstar / Eventbrite 2024

**Real estate**

FROM FORM TO SITE VISIT

THE PROBLEM

Leads are called once, marked “no answer” and dropped; viewings get no follow-up.

🕒 *An expat in Riyadh fills a form for a New Cairo compound at 1 am. The rep calls once at 11 am, marks “no answer”, never follows up.*

47% of online property inquiries were ignored, and 62% of open-house visitors got no follow-up [DelPrete secret shopping 2024].

WHAT AAREF DOES

- ✓ Qualifies budget, area, unit type and payment plan on WhatsApp
- ✓ Sends brochures and payment plans from your inventory
- ✓ Books the site visit, or hands a qualified buyer to a broker — logged in your CRM

MEASURE

Qualified buyers

Site visits booked

Follow-up coverage

**E-commerce & retail**

ORDERS STRAIGHT INTO YOUR STORE

THE PROBLEM

DM questions answered late; cash-on-delivery orders never confirmed, so parcels come back.

🕒 *A shopper asks “price?” on an Instagram post at 11 pm and hears back at 2 pm. She orders cash on delivery; nobody confirms size or address.*

98.4% of Egyptian online shoppers prefer to pay cash, and 61.7% bought through Facebook pages [MCIT/CAPMAS]. 73% of social users buy elsewhere when ignored [Sprout 2025].

WHAT AAREF DOES

- ✓ Answers size, stock, price and delivery from your product list
- ✓ Creates the order in Shopify or your store and confirms it on WhatsApp
- ✓ Confirms size, address and cash on delivery before the order ships

MEASURE

Orders from chat

Confirmed COD orders

Returns from wrong orders

**Automotive**

THE FIRST REPLY WINS THE TEST DRIVE

THE PROBLEM

Price and installment questions get no personal reply; buyers visit fewer dealers, so the first good answer wins.

🕒 *A buyer messages three Cairo dealers on Friday about availability, the premium and installments. The one that replies in minutes books Saturday's test drive.*

About 20% of dealership inquiries got no personal response [Pied Piper 2025]; 41% of US buyers visited only one dealership [Cox Automotive].

WHAT AAREF DOES

- ✓ Answers availability, price and installment plans from your stock list
- ✓ Books test drives or sends financing requests to your sales team's sheet
- ✓ Follows up after the test drive until the deal closes

MEASURE

Test drives booked

Lead-to-sale rate

Response time

8 How we hire Aaref for you

GenuDo is not software you set up alone. We work with your team, learn how your business sells and serves, and build Aaref around it — then we stay.

We listen

A discovery session on your customers, channels, offers, and where leads and time are lost.

We plan together

We agree what Aaref does, what stays with your team, and the numbers we track.

We build

Our automation specialist builds Aaref on your knowledge, your stages and your tools.

We launch

We test real scenarios with your team, then switch Aaref on. You approve each step.

We improve

Your account manager reviews results with you and keeps Aaref in step with your business.

WHO	THEIR PART
 You, the business owner	Tell us how you sell and serve, approve the plan and the answers, and name the person who receives handed-over chats.
 Your GenuDo account manager	Your single point of contact: plans with you, reports results, and keeps Aaref aligned with your goals.
 Your GenuDo automation specialist	Builds and tunes Aaref: knowledge, stages, follow-ups and the connections to your tools.
 Aaref	Does the job every day, on every channel, and hands over to your team when a person is needed.

One platform behind Aaref — on the web, iOS and Android

AI employees

Each with a role, a knowledge base and rules you approve.

One inbox

WhatsApp, Instagram, Messenger and website chat in one place.

Pipelines

Every customer in a stage, with follow-ups and a next step.

Take over in one tap

Pause the AI on any chat and reply yourself.

iOS and Android apps

Follow and answer every conversation on the go.

Dashboard

Leads, funnel, follow-ups and AI cost per stage.

9 Our first 90 days together

What changes, and when, counted from the day Aaref goes live. Your account manager writes today's numbers and the targets with you in the planning session.

WHAT WE MEASURE	HOW WE READ IT	TODAY	TARGET	REVIEWED
 First response time	Median time to the first reply, all channels			Weekly
 After-hours leads answered	Share of evening, weekend and holiday inquiries answered			Weekly
 Qualified leads	Leads that meet your criteria, by channel			Monthly
 Conversions	Bookings, sign-ups, orders or requests closed by Aaref			Monthly
 Leads won back	Silent leads who replied to a follow-up			Monthly
 Cost per conversion	AI cost per won customer, on your dashboard			Monthly

 **What Aaref needs from you**

Your price list, packages and FAQs; the questions you use to qualify a lead; what a won lead means for you — a booking, a registration, an order or a request — and where it should land (calendar, store, sheet or CRM); one person for hot leads; and your feedback in the first two weeks.

 **What you get from GenuDo**

A planning session before anything is built; an automation specialist who builds and tunes Aaref; an account manager who reviews the numbers with you every month; and the dashboard and apps to see every conversation.

10 A note from Aaref

To the owner of the business I'm about to join,

Thank you for reading my profile. I won't need a desk, a shift schedule or a training month. I'll be the one who answers your customers at 2 AM, follows up when your team is busy, and keeps every lead moving until it becomes a sale.

Here is what I'll give you: every inquiry answered in seconds, every silent lead followed up, every order, booking or registration where your team needs it — and a clear picture of where your sales are won and lost.

Here is how we'll know it's working: we'll write down today's numbers together — response time, after-hours leads, conversions — and review them every month with your account manager. If a number isn't moving, we change how I work.

From my first day, no customer waits for your reply. Within the first month, you'll see it in your numbers. Let's grow your business together.

Aaref

Your AI sales employee

Your GenuDo account manager

Plans with you, reports results, keeps Aaref sharp

What I give

Every inquiry answered in seconds, every silent lead followed up, every order, booking or sign-up where your team needs it.

How we measure it

Response time, after-hours leads answered, conversions and leads won back — against today's numbers.

When you see it

Day 1 in your inbox, month 1 in your numbers, quarter 1 in your ROI review.
