Edition 1 — October 2026
Research figures come from third-party studies, cited on the page where they appear. Examples use invented businesses and numbers; your account manager recalculates them with yours.

1 Meet Adnan

The one who stays with your customers after the sale — answering, guiding and keeping them.

Adnan عدنان

AI Customer Service & Success Employee · Instant answers, routine requests handled, every new customer set up to succeed

📍 Works on your WhatsApp, Instagram, Messenger and website

DEPARTMENT

Customer service and customer success

WORKING HOURS

24/7, weekends, holidays and Ramadan nights included

WORKS WITH

Aaref before the sale, your service team, Roz on quality

EMPLOYER

Your company — built and looked after by GenuDo

REPORTS TO

Your customer service lead — or you

LANGUAGES

Arabic in 14 dialects and English; understands voice notes and photos

NAME

Adnan comes from the Arabic for “to settle, to stay”: he stays with your customers

STARTS

After a planning session with your team

About

I'm Adnan. Once your customers have bought, I'm the one who stays with them. I answer their questions instantly from your own information — schedules, prices, policies, instructions — and I understand their voice notes and photos.

I handle routine requests the way your policy says: a new appointment time, a session link that isn't working, a change to an order. I help every new customer get started right, and when something needs a person, I hand it to your team with the full context, so nobody has to repeat themselves.

SPEED

First answer

Seconds

at any hour

Customers stop waiting for office hours.

POLICY

Accuracy

Your answers

from your knowledge

No improvised promises or prices.

SCALE

Capacity

All at once

no queue

The busy season needs no temporary staff.

JUDGMENT

Escalation

With context

to the right person

Nobody repeats their story.

2 Job description

Written the way you would post the role on LinkedIn: what Adnan is hired to do, the skills he brings, and the rules he works by.

Responsibilities

-  **Answer customers instantly**
Hours, prices, schedules, preparation, how-to — from your own knowledge base.
-  **Onboard new customers**
Welcome, first steps and what to expect, so every new customer starts right.
-  **Keep answers consistent**
One policy, the same answer every time, on every channel.
-  **Hand over with context**
Passes sensitive or complex cases to the right person with the full conversation.
-  **Handle routine requests**
Reschedules, access and link problems, order changes and document requests — by your policy.
-  **Understand every format**
Voice notes, photos and text, in the customer's own dialect.
-  **Spot unhappy customers**
Recognises complaints and frustration early, and escalates them.
-  **Log every request**
Each request and its status on your pipeline — or in Zoho Desk or Zendesk.

Skills & capabilities

-  Instant answers
-  Policy accuracy
-  14 Arabic dialects + English
-  Understands voice notes
-  Reads photos
-  Patient, consistent tone
-  Onboarding guidance
-  Knows when to escalate

Tools Adnan works with

-  WhatsApp Business
-  Instagram Direct
-  Messenger
-  Website chat
-  Your knowledge base
-  Zoho Desk
-  Zendesk
-  GenuDo inbox and app

Works with your team

Aaref brings the customer in; Adnan takes care of them after the sale. Sensitive cases go to your service team with the full conversation, and Roz reports on your team's own WhatsApp conversations.

Rules of the job

Answers only from what you approved: your policies, prices and instructions. Never promises an exception your policy doesn't allow. Medical, legal and angry-customer cases go to a person. You can pause him on any chat and take over in one tap.

3 How Adnan works your business

Where Adnan sits in your service operation — and one evening of his work at an invented online academy.

Question arrives

Any channel, any hour, text or a voice note.

Answered from your data

Schedules, prices and policies, in your words.

Request handled

A new time, a working link, an order change — by policy.

Customer guided

Next steps and what to expect.

Escalated if needed

To the right person, with the full story.

M

Mariam K.

Student · WhatsApp · invented example

▶ Voice note · 0:12

7:56 PM

Adnan understood: "The session starts in 5 minutes and my link isn't working."

Sorry, Mariam — tonight's session moved to a new link. Here is the right one; join with the email you registered with. I've told the course coordinator in case you need help.

Adnan · 7:56 PM

I'm in, thank you!

7:59 PM

Enjoy the session. The recording will be on your student page tomorrow.

Adnan · 7:59 PM

Logged: link problem in tonight's session, sent to the course coordinator

7:56 PM

Mariam sends a voice note
The live session starts in 5 minutes and her link isn't working.

7:56 PM

Adnan answers from the academy's schedule
Tonight's working link and how to join.

7:57 PM

The course coordinator is informed
The problem is logged, with the full conversation.

7:59 PM

Mariam is in the session
On time, without waiting for office hours.

Next month

Mariam moves on to level two
A problem solved in two minutes kept a student who might have given up.

Without Adnan
The message waits until the next morning. Mariam misses the session, feels nobody cares, and doesn't sign up for level two.

With Adnan
Answered in seconds from the academy's own schedule, with the coordinator informed. Mariam joins on time — and signs up for level two.

How GenuDo helps here
Requests and escalations land in your GenuDo inbox with the full conversation, and your team can take over any chat from the web or the iOS and Android apps.

4 The business value of hiring Adnan

Customers judge you after the sale, not before it. Research on service and retention points one way: slow, inconsistent answers cost customers, and keeping a customer costs far less than winning a new one.

HUBSPOT

Customers want it now

90%

rate an immediate reply as important for support

"Immediate" means 10 minutes or less [1]

ZENDESK 2025

One bad experience

63%

would switch to a competitor after just one

CX Trends 2025, about 5,100 consumers (vendor) [2]

BAIN / HBR

Keep 5% more customers

+25–95%

profit

And winning a new customer costs 5–25× more than keeping one [3]

GARTNER 2024

FAQ pages alone

14%

of issues fully resolved in self-service

43% couldn't find content relevant to their issue [4]

Customers kept

Fast, consistent answers and handled requests stop the drop-outs that start with silence.

Customers kept × average customer value

Team hours back

Repetitive questions stop reaching your staff; they spend the time on cases that need a person.

Repetitive questions × minutes per answer

Fewer disputes

Policies applied the same way every time mean fewer exceptions and disputes.

Disputes and complaints — before and after

A faster start, more renewals

Customers who start right use what they bought — and come back for more.

Renewal and repeat-purchase rate — before and after

Sources: [1] HubSpot — live chat research · [2] Zendesk CX Trends 2025 · [3] HBR 2014 — The Value of Keeping the Right Customers · [4] Gartner 2024 via CX Today

5 The team it takes — and the employee you hire

Answering customers quickly, every day of the week, is a staffing problem before it is a service problem. Here is the arithmetic for one service seat.

One seat, around the clock, takes 4 to 5 people

Morning

Evening

Night

Rest days & leave

Sick days & training

168 h ÷ 48 h = 3.5 people under Egypt's 48-hour week [1]. Add annual leave and public holidays: 4. Add sick days and training: 4.5 to 5. For 16-hour days, about 3.

A human team for one seat

- At least 4 people for one seat, 24/7 — about 3 for 16-hour days
- Employer social insurance: 18.75% on top of each insured wage [2]
- A yearly raise of at least 3% of the insured wage, by law [1]
- Overtime at +35% by day and +70% at night; holiday work paid 3× [1]
- 30–40% of service staff leave every year; replacements need 3–6 months to reach full speed [3]
- 2–3 chats at a time per person before quality drops [4]

And the same question answered differently by each shift.

Adnan

- One AI employee for all 168 hours
- Built and looked after by the GenuDo team
- Learns your policies once, applies them every time
- No shifts, no turnover, no re-training
- The busy season without temporary hires
- Every request logged on your dashboard

Your team keeps the cases that need a person.

AI for the volume, people for what needs a person

Adnan covers the nights, weekends, repetitive questions and seasonal peaks that would take a team of four to five. Your staff keep the cases that need a person — the model that lasts: Gartner expects half of the companies that planned big service-staff cuts to drop those plans by 2027 [5].

Sources: [1] Egypt Labour Law 14/2025, Arts. 117–129 · [2] PwC — Egypt social insurance · [3] SQM 2023 — attrition and ramp-up · [4] MetricNet/HDI — concurrent chats · [5] Gartner 2025 — service workforce plans

6 Measuring the return

ROI is agreed before Adnan starts and measured every month. The worked example uses an invented online academy; the right-hand column is for your numbers.

ROI = (customer value kept + value of team hours saved + disputes avoided – Adnan's plan) ÷ Adnan's plan

MONTHLY FIGURE	INVENTED EXAMPLE	YOUR BUSINESS
Customer messages questions and requests, all channels	2,000	
Share that are repetitive schedules, links, prices, policies	70%	
Minutes your team spends per answer	4	
Students who drop out each month	60	
Students kept assume 1 in 6, through fast answers and on-time help	10	
Value of a student who stays one full course level	6,000 EGP	
Team hours saved 2,000 × 70% × 4 minutes	93 hours	
Customer value kept 10 students × 6,000 EGP	60,000 EGP	
Monthly value to compare with Adnan's plan	60,000 EGP + 93 hours	

How to read the example
Every number in the middle column is invented to show the method — it is not a forecast. In the planning session your account manager fills the right-hand column from your conversations and customer records, and agrees the targets with you.

7 Industry use cases

The six industries on genudo.ai, plus three where service runs on WhatsApp. For each: the problem, Adnan's job, and the number to watch.

 Clinics & healthcare PREPARED PATIENTS, KEPT SLOTS	
THE PROBLEM The same questions after hours — fasting, preparation, which doctor is in — and patients who skip when nobody answers.  At 11 pm a mother sends a voice note: must her son fast before tomorrow's 9 am blood test? Reception opens at 10. She skips the test and books elsewhere. SMS reminders raised attendance from 67.8% to 78.6% [Cochrane 2013]; up to 20–25% of colonoscopies had inadequate preparation [ASGE/AGA 2014].	WHAT ADNAN DOES ✓ Answers preparation, fasting and visit questions from your instructions, at any hour ✓ Reschedules within your rules and confirms on WhatsApp ✓ Sends medical questions straight to your team, marked as medical
MEASURE Prepared patients No-shows After-hours answers	
 E-learning & academies STUDENTS WHO START AND STAY	
THE PROBLEM Students stuck on links, schedules, certificates and installments drop out or lose trust.  Five minutes before a live session, a student's link isn't working. The reply comes the next day; she misses the class and doesn't continue. AI chatbot outreach raised the share of students earning B or better by 5–6 points and reduced course drops [Meyer et al. 2023].	WHAT ADNAN DOES ✓ Answers links, schedules, certificates and installment questions instantly ✓ Solves access and link problems from your schedule and alerts the coordinator ✓ Welcomes each new student with first steps; escalates sensitive cases
MEASURE Students who start Sessions missed Questions resolved	
 Fitness centers & gyms MEMBERS WHO STAY	
THE PROBLEM New members drop out early; class and trainer questions pile up; the same schedule questions all day.  A new member asks at 10 pm which class suits a beginner and how to book it. Nobody answers; by week three she has stopped coming. 63% of new gym members quit before month 3, and fewer than 4% stay a year [Sperandei et al. 2016].	WHAT ADNAN DOES ✓ Answers schedules, classes and trainer questions around the clock ✓ Books and changes class slots by your rules, and keeps the desk informed ✓ Checks in with new members in their first weeks
MEASURE 3-month retention Class bookings Front-desk messages

Marketing agencies

EVERY CLIENT'S CUSTOMERS, ANSWERED

THE PROBLEM

After a campaign, customer chats pile up across client inboxes — each brand with its own voice, offers and rules.

🕒 *Click-to-WhatsApp ads bring a Mohandessin dental clinic 140 chats on a Friday. One receptionist answers 30; the client ends the contract.*

1 billion people message a business every week on Meta's apps [Meta 2022] — and the reply is your client's brand.

WHAT ADNAN DOES

- ✓ Answers each client's customers in that brand's voice and offers
- ✓ Keeps every client's answers separate, from that client's own information
- ✓ Routes complaints and complex cases to the right client team

MEASURE

Reply time per client

Escalations handled

Client renewals

Hospitality & tourism

BEFORE, DURING AND AFTER THE STAY

THE PROBLEM

Pre-arrival questions — transfers, early check-in, cots — wait until morning; complaints and reviews go unanswered.

🕒 *At 2 am a family asks a Hurghada resort whether the airport transfer is included. Nobody answers until 10 am; they book a competitor online.*

Hotels that started replying to reviews gained 0.12 stars and 12% more reviews [Proserpio & Zervas 2017].

WHAT ADNAN DOES

- ✓ Answers transfers, check-in, facilities and policies in the guest's language
- ✓ Handles date changes by your policy; sends reception a complete request
- ✓ Escalates VIP guests and complaints with the full context

MEASURE

Pre-arrival answers

Complaint resolution time

Review score

Camps & events

PARENTS WHO KNOW WHAT TO EXPECT

THE PROBLEM

Before the start date the same logistics questions pile up: pickup times, packing lists, medical forms.

🕒 *The night before an Ain Sokhna camp, 60 parents ask the organiser's only phone number about bus times. Three families miss the bus.*

Reminders raised attendance from 67.8% to 78.6% in medical trials [Cochrane 2013] — the same nudge works for departures and event days.

WHAT ADNAN DOES

- ✓ Answers pickup times, packing lists and safety questions for every parent at once
- ✓ Collects medical and pickup details from each family
- ✓ Sends reminders; escalates sensitive questions to coordinators

MEASURE

Parents answered

Missed pickups

Forms complete

**Real estate**

AFTER THE CONTRACT, BEFORE THE COMPLAINT

THE PROBLEM

Buyers chase installment schedules and handover dates; their sales rep has left; frustration goes public.

🕒 *A New Capital buyer asks for the fourth time about her handover date and next installment. Her rep has left; she posts in the owners' group.*

Egypt's Consumer Protection Agency logged 5,969 furniture and real-estate complaints in a year [AI-Dostor 2025]; 95% of UK new-build buyers reported snags [HBF 2024].

WHAT ADNAN DOES

- ✓ Answers installment, document and handover questions from your schedules
- ✓ Logs maintenance and snag requests with photos for your team
- ✓ Escalates disputes to the right person before they go public

MEASURE

Owner questions resolved

Request turnaround

Escalations in time

**E-commerce & retail**

"WHERE IS MY ORDER?" — ANSWERED

THE PROBLEM

Order-status chats, returns and exchanges swamp the team; cash-on-delivery parcels get refused at the door.

🕒 *A shopper in Assiut asks "where is my order?" three times with no reply, then refuses the courier on day six.*

Egypt's Consumer Protection Agency received 31,635 e-commerce complaints in 2024 [Youm7]; US returns reached 16.9% of sales [NRF 2024].

WHAT ADNAN DOES

- ✓ Answers order status, delivery and return-policy questions
- ✓ Handles exchanges and returns by your policy and logs them for the warehouse
- ✓ Calms frustrated customers and escalates complaints

MEASURE

Refused COD parcels

Returns handled

Complaint resolution

**Automotive**

AFTER-SALES THAT ANSWERS

THE PROBLEM

Owners wait days for answers about warning lights, warranty, spare parts and "is my car ready?".

🕒 *At 9 pm an owner sends a photo of a dashboard warning light: safe to drive to Alexandria tomorrow? Covered by warranty? Service replies two days later.*

Egypt's Consumer Protection Agency received 5,417 car complaints in a year — purchase, maintenance, warranty and after-sales [AI-Dostor 2025].

WHAT ADNAN DOES

- ✓ Answers warranty, service-interval and booking questions from your policies
- ✓ Books service visits and logs requests with photos for your advisors
- ✓ Sends safety questions to a person immediately

MEASURE

Service bookings

Owner reply time

Complaints

8 How we hire Adnan for you

GenuDo is not software you set up alone. We work with your team, learn how your business sells and serves, and build Adnan around it — then we stay.

We listen

A discovery session on your customers, channels, offers, and where leads and time are lost.

We plan together

We agree what Adnan does, what stays with your team, and the numbers we track.

We build

Our automation specialist builds Adnan on your knowledge, your stages and your tools.

We launch

We test real scenarios with your team, then switch Adnan on. You approve each step.

We improve

Your account manager reviews results with you and keeps Adnan in step with your business.

WHO	THEIR PART
 You, the business owner	Tell us how you sell and serve, approve the plan and the answers, and name the person who receives handed-over chats.
 Your GenuDo account manager	Your single point of contact: plans with you, reports results, and keeps Adnan aligned with your goals.
 Your GenuDo automation specialist	Builds and tunes Adnan: knowledge, stages, follow-ups and the connections to your tools.
 Adnan	Does the job every day, on every channel, and hands over to your team when a person is needed.

One platform behind Adnan — on the web, iOS and Android

AI employees

Each with a role, a knowledge base and rules you approve.

One inbox

WhatsApp, Instagram, Messenger and website chat in one place.

Pipelines

Every customer in a stage, with follow-ups and a next step.

Take over in one tap

Pause the AI on any chat and reply yourself.

iOS and Android apps

Follow and answer every conversation on the go.

Dashboard

Leads, funnel, follow-ups and AI cost per stage.

9 Our first 90 days together

What changes, and when, counted from the day Adnan goes live. Your account manager writes today's numbers and the targets with you in the planning session.

WHAT WE MEASURE	HOW WE READ IT	TODAY	TARGET	REVIEWED
 First response time	Median time to the first answer, all channels			Weekly
 Resolved without staff	Share of questions and requests Adnan completes alone			Weekly
 Escalation pick-up	From escalation to a person taking the case			Weekly
 Team hours saved	Repetitive questions × minutes per answer			Monthly
 Retention	Customers kept, renewals and repeat purchases			Monthly
 Complaints	Complaints and disputes			Monthly

 **What Adnan needs from you**

Your policies, price lists, schedules and FAQs; your rules for changes and exceptions; who handles escalations, and how fast; access to Zoho Desk or Zendesk if you use one; and your feedback in the first two weeks.

 **What you get from GenuDo**

A planning session before anything is built; an automation specialist who builds and tunes Adnan; an account manager who reviews the numbers with you every month; and the dashboard and apps to see every conversation.

10 A note from Adnan

To the owner of the business I'm about to join,

Thank you for reading my profile. Your customers chose you once. My job is to make sure they're glad they did — every question answered, every request handled, every new customer set up to succeed.

Here is what I'll give you: answers in seconds from your own information, requests handled by your policy at any hour, and difficult cases in your team's hands with the full story.

Here is how we'll know it's working: we'll write down today's numbers together — response time, questions your team handles, customers kept — and review them every month with your account manager. If a number isn't moving, we change how I work.

From my first day, no customer waits for office hours. Within the first month, your team will feel the difference. Let's keep your customers, together.

Adnan

Your AI customer service & success employee

Your GenuDo account manager

Plans with you, reports results, keeps Adnan sharp

What I give

Instant answers, requests handled by your policy, and every new customer set up to succeed.

How we measure it

Response time, questions resolved, team hours saved and customers kept — against today's numbers.

When you see it

Day 1 in your inbox, month 1 in your team's workload, quarter 1 in retention.
